Short Stories

A Heaven's Tale

Chapter One

About seven thousand years ago; also about the creation of the first earth; Gartogade created the computer. And was thus known as the Iron Lord.

Iron are materials that are not used in creature factories and also can't be used as food for creatures. Some of them are poisonous.

Then two thousand years before the birth of Jesus Christ, Vatti completed

vehicle research and produced the first vehicle.

And so Gartogade lost his title and Vatti was now given the title of Iron Lord.

Chapter Two

In the year 2020: Gartogade (Computer Lord) proved to God that driverless vehicles are indeed possible. This proof happened on earth.

And so Gartogade regained his title as Iron Lord.

Many and indeed many were behind the success of the Iron Lord (Gartogade). But Mardara was the most loved of the friends of Gartogade during the production of driverless vehicles.

Mardara is a son of High God. And High God is a son of God. And God created this earth.

Chapter Three

God went to High God's lands and went to see High God.

God spoke to High God: I sent you forty million people and you rejected

them since they were not educated. These forty million would not lie to you, they would not waste your resources.

High God responded: How long will it take me to educate them? You know that a computer as simple as it is has eight parts. When will they read all the books on the making of a computer? Then Vatti's vehicles had forty parts with some parts repeating. I can't take them.

High God continued: But since You think they are that good, send them to

Zarr (the Lord of Records).

Because her books are not much.

And God was happy.

About Carlsbergo

Chapter One

Aanika sanged a great song when she was on earth. It goes thus:

God spoke to the sons of Manika. He told the first son to make buildings and teach the making of buildings. He agreed.

God told the second son to answer prayers in Eduabon, Achicha and Ikillia. He agreed.

Chapter Two

Aanika died and was judged to go to heaven. She was assigned to work under Zarr (the Lord of Records). Her station was to assist Zarr in keeping records for the Gods.

After a lot of meetings and record keeping, she wondered why the Gods were only twenty-one. And why Instruments (her Lord) and Carlsbego were not there.

This made Zarr speak on the matter. She said that those Lords of hers are Creature Makers not Gods. And

that Gods are Lords who know both earth making and creature making.

Chapter Three

It was time to update the lists. The Lord in charge was Prophecy (the Lord of Prophecies). She gave strange news. It was that Carlsbego is now the best Creature Maker.

Brulo the hardworking (a God) and another Unknown God didn't agree at first. They decided that it should be checked by some other group of Judges.

Carlsbego still came out on top. Aanika was happy about Carlsbego.

Chapter Four

After this news. God spoke to some of his teachers, instructing them to teach these sayings to every young child.

Sorcero is one thousand years older than Vatti, yet Vatti is number two God and Sorcero is number three God.

Also Instruments is three thousand years older than Carlsbego, yet

Carlsbego is number one Creature
Maker.

So an old man is not always better
than a young man.

Best Friends

Chapter One

Breakato was happy. She now realized that she had the power of Brulo. She was happy.

The power of Brulo is of awesome sights.

There were other problems in her life which made her unhappy. And that was about not having any friend she liked.

She prayed on it and God answered her. With the power of Sorcero God

directed her to Moofes. And told her she would be among her best friends. Moofes had a full measure of the power of Sorcero.

She found Moofes to be a good person compared to the friends she had.

Both Breakato and Moofes graduated with a low average from the university.

Chapter Two

Breakato saw her brother Aameka having a problem. The problem was

that he was trying to make the company where he worked use another product than the one they were using. He could not.

Then, Breakato spoke to Aameka of Moofes. Saying she could solve his problem.

Aameka went to Moofes and explained his problem. Moofes first asked her Holy Spirit if Aameka was in the right. On receiving the answer that he was she helped Aameka. And the problem became a past one.

Chapter Three

Breakato's Holy Spirit taught her that she should always have call credits. Especially for emergency cases.

People around her always asked her for call credits, which pained her. But she kept on having call credits which solved some of her problems.

Chapter Four

Breakato went to see her wealthy Uncle Mormonik. Mormonik was having a problem. The problem was that he wanted the government to put a Soldier's Barracks in an area where

his factory was. This was to prevent theft. But it dawned on him that his money would not be able to solve this problem.

Mormonik was thinking of this problem when Breakato arrived.

On reaching Mormonik, she told him that if he does not increase the wages he pays his workers God would come and punish him.

He didn't believe her and it actually happened.

Mormonik then thought to himself. He had two factories and a bank. A lot of workers and yet, none of them was as good to him as Breakato.

He wondered how his money could get him a friend like Breakato.

Cunte's Investigations

Chapter One

Sons of Molech were the kings of a country. And so there was a lot of suffering in that country.

Mantila suffered but succeeded in sending his two children through school.

One (Emeranta) got a job, the second (Salomae) did not and Mantila kept on insulting the second.

This made Cunte (Lord of Soldiers) to investigate the matter.

Cunte found out that Dondiem (a wealthy man) had a son called Donnaka. Donnaka started a company and that was were Mantila's son Emeranta worked.

Cunte also found out that Isolo (a wealthy man) gave birth to a fool who did not start a company. And this fool was assigned the same course by God that was assigned to Salomae.

Chapter Two

The best bank in this country that was ruled by some Sons of Molech sacked about a thousand (1000) staff.

Their wives and children lamented. They complained bitterly.

This made Cunte (Lord of Soldiers) to investigate the matter.

He found out that those who were sacked were assigned courses that would not make them much money by God. Such as mechanic (vehicle repair), carpentry and teaching.

So these Wryslers were not working in their own places, and so were not performing well.

Since they were not performing well, the Bank had to sack them.

Chapter Three

A song which was loved by Cunte at that time was:

The men who were good people and had the highest number of great buildings were all Maxims. The men who were good people and had the highest number of trailers were all Maxims.

Fell from Heaven

Chapter One

Donemmma was in the university reading his University books. He was studying Mining.

Donemmma lived in Alta.

And then his Holy spirit spoke to him saying: To be effective in your prayers, pray with strange words (also known as praying in tongues). If you desire it ask God in prayers for it.

Donemmas did pray for that ability. God responded and gave him some laws which he must abide with to get the ability.

The laws were that he should stop lying and study the course which he gave him.

After three days the ability came upon him. His Holy Spirit reminded him that to pray in tongues he must wait for the prompting of his HOLY Spirit.

Chapter Two

Long after this, Donnaka wanted to start a computer factory. This was because he was a wealthy farmer and about 70 years old. He also had friends with other wealthy farmers like Dalaka.

So he prayed for a factory boss and God introduced him to Donemma.

Chapter Three

Watalaka was a very wealthy man in another country (not Alta) and needed to start a computer factory. He had enough money to repeat that factory.

He and everyone in his community knew that the best computer factories were made in Alta and by Donemma.

So he went to Donemma and made his plea: that he wanted to repeat his computer factory.

Donemma said that he couldn't because he had only two sames. And that they are currently researching on how to make his computer factory more comfortable for his workers.

And so have not the capability to travel out of his country to repeat the factory.

It hadn't happened in a long time that Watalaka cried and felt helpless.

Chapter Four

Donemma died and was found by the Judges of Heaven to be the best graduating factory man of the earth. He now had 11 sames. And thus went to Upper Heaven (he was in charge of a business)

He was in Heaven and loved the planning of the buildings in Heaven.

After three years God came and spoke to him saying: I have noticed in these three years that you are indeed the best person to graduate from earth to heaven. And because of that I am sending you back to earth to teach. I want you to teach my children both general studies and factories.

In a matter of minutes, he was back to earth. He didn't wake up a baby but a young university graduate.

Finding a Factory Boss

Chapter One

Balouou had earlier started a factory. He also had a lot of money. A sum which reached the amount to start another factory.

But there was a problem: he needed to find a factory boss to employ.

He had used up all his heaven treasures on some other project. And he needed more to buy a factory boss from God.

Chapter Two

So he came up with an idea to earn heaven treasures and he executed it.

So he prayed to God saying: God let me answer prayers so I can earn some heaven treasures.

God responded saying: Only Maxims and Bales answer prayers. You are not qualified.

Bales are people born with knowledge written to their heads by a Soulman.

Chapter Three

After that ugly event, he heard the voice of a Brulota. Brulota once got him the questions of an external exam he was about to take.

He always loved the voice of Brulota.

Brulota came because he was having problems finding a factory boss.

She said that she would give him a piece of God's eyes and with that he would be able to recognise a factory boss.

Going on she advised him to go to public places especially markets and churches. If he does go to such places and there is a factory boss there he would recognise the person with the eyes she gave him.

Gborea Has Fallen

Chapter One

Who was to be blamed for Gborea's fall. First was Kalkulo.

Kalkulo planted his trees only in Gborea. Kalkulo knew many things. Including earth making and plant making. But he doesn't know how to locate his trees.

Kalkulo's trees were raw materials for two factories. And this was the lust that led to Gborea's fall.

Chapter Two

The second to be blamed was the teachers God assigned to Gborea. They taught hard religion in Gborea. While the teachers of Illerac, their neighbours taught easy religion.

This led to the fact that the population of Gborea became twenty (20) million, and the population of Illerac became one hundred and twenty (120) million.

Chapter Three

A Prophet was happy that he had three sons, of which two were destined to be factory bosses.

But when he heard that war was coming to his beloved Gborea (where he lived), he began to lament saying: I have no children who are soldiers.

Chapter Four

During the last of the battles between Illerac and Gborea, a soldier of Gborea killed eight (8) soldiers in a sword fight and then was killed by the ninth soldier.

A miracle indeed.

Chapter Five

In Heaven, there was a party. The party was about the rewards God was giving Kalkulo for his trees.

A Holy Spirit was offended and spoke up to God saying that four of her children died in the war for Kalkulo's trees. And that Kalkulo's rewards should be reduced because he knew no location.

God then said locating a business is a lot of books.

She responded that there was a shortcut and that was to pray to God to tell him the location.

And God said: Shut up high woman, for Kalkulo knows many things. And can be said to be awesome even though he doesn't know how to locate his trees.

Great Teachers

Chapter One

Manuel was a carpenter. He wasn't the boss of his workshop, he worked under someone. He had the power of Sorcero.

His destiny (job from God) was to make sure young children study their God given courses. His other destiny was to make young children read important books.

And this he did well. After some years of doing this, God sent a dream calling him "Great Teacher".

Chapter Two

Manuel made Memenaka study his God given course. Which was accountancy.

Memenaka wanted to study something else. But after being in the university, he found this course to be more interesting to him. And it was something he could easily do.

In Memenaka's set was Accooa. Accooa always had high scores. His scores usually reached 90 in some courses.

This made Memenaka pray to God asking that God should grant him the brilliance of Accooa.

God investigated the situation and found out that Accooa was a factory boss and not an accountant. This he told Memenaka.

Chapter Three

God went to the place where Accooa was living before he entered the university. The head teacher (Aamorou) in the style of Sorcero was ok.

Then God thought that no crime had been committed since he saw that Aamorou was overwhelmed with duties.

God provided Aamorou with more men, and he moved Acccoa from his body to another body, and dropped some accountant into Acccoa's previous body.

Acccoa's father noticed a drop in his son's average score and wished he could get more serious. But his son was never able to achieve the previous high scores.

Kalerum is a Corpse

Chapter One

The King of Eveeldi increased the salaries of his Soldiers. He hoped it would increase the interests of young men in becoming Soldiers.

It really worked.

This made Kalerum, who wasn't really liked by his Holy Spirit, to apply to become a Soldier.

Before Kalerum's Holy Spirit left him permanently, she told him that he was a corpse not a soldier. And that guns

and swords are useless when he wields them.

Chapter Two

Kalerum was sharing a Holy Spirit with forty other people. One of them was Aadulma, a woman.

Aadulma was scared of the armies a King was gathering.

Then her Holy Spirit decided to teach her a song of Gattulo which goes thus:

The letter which stopped the King of Caseria can be bought for money which can't buy food.

And her fears melted.

King of Argulam

Chapter One

The King of Argulam rebelled against the union of four kings. Many called him stupid since they would war with him and he would lose.

The war indeed happened: the four kings and their kingdoms went to war with the King and the Kingdom of Argulam.

The King of Argulam was defeated. And the Kingdom of Argulam had to follow the ways of the Union.

Chapter Two

Manika and his friends gathered in Manika's house to discuss the events of the time they lived in. They picked Manika's house since he was the wealthy one among them.

While discussing, Manika's wife (Gartogede) spoke and said strange words. She said the King of Argulam won the war.

After their discussions, Manika scolded his wife saying that she should stop all these prophetic statements.

Manika went on reminding his wife that Prophets are few and that means she is not one of them.

Chapter Three

Four weeks after the death of the King of Argulam, God woke up Brenden (Lord of Soldiers) from his slumbers.

Brenden summoned locusts from his heavens and devoured the army of the Union (its three kingdoms). Those that were left in the army of the Union, had something like leprosy on their skin.

Chapter Four

Gartogede went to her husband telling him of the news concerning Brenden. And that her prophecy had at last come to pass.

Manika responded: Well that's something but Prophecies cannot pay your bills (since the Lord of Prophecies have declared that a prophet cannot collect money for his advice). And so please go back to the market and keep selling.

Yes I will, but I will also keep being a prophet, said Gartogede.

Man with the Heavy Soul

Chapter One

Saluwa worked in Battula (a group that takes care of the poor).

She was very committed to her work. Her family and friends always commented that poor people would not finish so she should reduce her commitment.

Saluwa worked in Battula committedly till she was 40 years and then God blessed her with a friend called Baila. God told Saluwa that Baila had a heavy

soul and so would be her very good friend.

Chapter Two

Baila had a heavy soul and that made his father like him more than any of his children.

Baila's father approached him with some more money telling him to start a music band.

But since Baila had a heavy soul he turned down the offer. His father still liked him.

Chapter Three

With the help of Baila's father, his Uncle Dondaka and some other people, Baila set out to do factory research.

The object in mind was made of 5 parts.

Baila had difficulty in making one part and prayed on it. There was no response.

Inspired by his Holy Spirit Baila prayed with these words: That God should tell him what he must do to get his prayers answered.

And that solved the problem.

Chapter Four

An old man (about 50 years in age) approached Baila to ask some questions. The old man was named Walano.

Walano asked about the component Baila had problems with and Baila responded with the fact that it was prayers that solved that problem.

Walano went to try that with some other factory research he was doing. There was only silence.

Walano then went back to Baila and reported what happened.

With the guidance of his Holy Spirit, Baila told Walano that he should tell God to remember his good works and list his good works to God.

Walano did that and his answers came.

Oweile

Chapter One

In heaven, God went looking for Gartogade (Computer Lord), his friend. On getting to his home he asked where his friend was.

Many people responded that they were all his friends. And God then said "How much help have you rendered me. Especially great help."

And then they kept quiet and took him to Gartogade. God spoke to Gartogade telling him to release one of his factories on earth because no

one had thought of it and his children needed it.

Gartogade went to check the list of best factory workers on earth (with the Lord of Records). Oweile came out on top and was given the designs of the factory.

Chapter Two

Oweile had a subordinate called Aliman, who handled a factory unit in a different town. This factory unit was still under the factory design Gartogade gave to Oweile.

Aliman hated Serbrina, his cleaner. This was because Serbrina was more qualified than being a cleaner yet she applied for the post of cleaner.

She came more than once asking for money but Aliman never gave it to her.

Aliman had a problem and prayed to God concerning his problem. God didn't respond quickly and the matter was getting worse. When God responded he said "Why did you not help Serbrina. If you do not help her, I would not help you."

Chapter Three

Oweile wanted to start another factory and prayed to God concerning the factory asking for designs. In his prayers he included "You said we should learn from the Old ones or those who have gone before us."

God told Oweile that he should pick a factory similar to the one he was given, so that it would be easier for him. This is the law of Gartogade.

Since it was against God's plans for Oweile to start the factory he intended, he decided to look for

another factory similar to the one he was given.

Son of Isolo

Chapter One

Isolo didn't like his son while he was growing up. He now began to like his son now that he was fully grown.

His son's name was Wryslahu.

The reason Isolo liked his son now that his son was fully grown and graduated from the university was that his son had opened a new business.

The business was computer related.

His son became popular and was even invited to a TV program to explain some things.

Chapter Two

Wryslahu died five years after starting his business.

This pained his father (Isolo).

His father dreamt of the judgement of Wryslahu. His mother saw the judgement of Wryslahu.

Chapter Three

The judgment was as follows:

A great audience watched and a group of Judges was called upon. Many of the Judges were apprentices of God.

God accused Wryslahu Isolo of not doing the course he was sent. Wryslahu was sent to do town planning. There was funding but he decided to do something else.

A young creature maker then spoke about some sons of his who were sent to teach and didn't do it. And they

were not yet killed and sent to hell fire.

God replied that it was only Soldiers and Town Planners that get killed if they do not do their courses.

There would be alot of suffering if Soldiers and Town Planners do not do their courses.

Sons of Odinna

Chapter One

Watamulun was not a happy man. He went to the university and still couldn't speak the language as well as some others. And it was obvious.

Watamulum always thought to himself that no woman would marry him because he couldn't speak well.

Noticing his depression, God spoke to him.

God said: The way you speak just means you can't teach and nothing else. It is a way of reducing the cost of the Soul of a Creature. You would definitely get married. And any who complains of the way you speak is a bad person.

Chapter Two

Watamulum indeed got married and had some children. One of them was Marthana, a son of Odinna.

Marthana, a son of Odinna did not graduate with a high score in the University.

As always, Sons of Odinna had a great measure of the power of Sorcero.

She was fully taught in the ways of the Sons of Odinna.

Chapter Three

In the Country where Marthana and Watamulum lived, lived Mormonica.

Mormonica was depressed and angry because he was more qualified for a contract but he was not given the contract by their Governor.

And then he heard a voice speaking to him on the matter. It was the voice of Marthana, son of Odinna.

The voice said: Do you remember that you paid many of your workers below the minimum wage God had set. And that is why I made sure you didn't get the contract.

I (son of Odinna) and the other Sons of Odinna would be a curse to you because of your ways. We would be your personnel Devil.

Chapter Four

Watamulum last son, the youngest was a Churchman. He was called Raphaelan

On noticing that his elder sister Marthana had a full measure of the power of Sorcero, he started avoiding her.

Marthana was annoyed about his brother, Raphaelan's behaviour. And went to talk to him about it.

Marthana said: Please stop avoiding me. God is greater than Sorcero or Odinna. God even created Odinna.

Chapter Five

In the Country where Marthana and Watamulum lived, lived Mathewal the Carpenter.

Mathewal prayed to God concerning a matter. The matter was this:

His brother Gangantu was supposed to be a great man. He had a big shop and was earning far more than him.

His brother Gangantu offended a Ceaser and his market stopped selling. Now Mathewal began feeding his brother from his Carpentry.

Mathewal prayed that: Oh God when will the oil of Sorcero, the Ceaser has would finish.

Chapter Six

Marthana was sent by Odinna to help Mathewal with his problem.

She got her friends (all sons of Odinna) and they went to permanently stop the Ceaser that disturbed Mathewal.

Marthana and her friends did not collect any money from Mathewal and

the other people who the Ceaser was
troubling.

The Best

Chapter One

There was a wealthy man in the area where Janjugu lived. The wealthy man's name was Dondiem.

Janjugu was indeed brilliant. He asked Dondiem for funding for a factory. The factory's produce would have two components. Dondiem willingly agreed.

So also did Vattimutau live close to Dondiem. He asked Dondiem for funding for a factory. The factory's produce would have seven

components. Dondiem complained of its difficulty since the number of components tells its difficulty.

After a lot of arguing and praying by Vattimutau, Dondiem agreed.

Chapter Two

Vattimutau had a problem. By strange or unexplainable means Breako heard of his factory intent. Breako wanted the factory to be in his area. But Vattimutau wanted the factory in another area, an area which God picked for him.

Breako was a son of Possesodum.

It was by the grace of Sodiolam (son of Sodica) that Breako left Vattimutau and was never found again.

Chapter Three

Years after the two factories were established, God loved the two factories and decided to reward the factory bosses.

To Janjugu he gave three sames and to Vattimutau he gave eleven sames.

Janjugu complained about how they were both factory men and that why should God give more to Vattimutau. God responded that the number of components of a factory object tells us of its difficulty.

The Librarian

Chapter One

Azelea (God's Librarian) was doing her duties of reviewing and updating God's books. Because of her awesomeness other book writers usually hope she managed their books.

Azelea's jobs were usually much since God had written more than a million books. Many concerning factories.

She is also a teacher, not like those who go out teaching people, but in the form of calling people to the library to read.

Chapter Two

Wantuaa worked for Azelea. She brought a complaint about Jeremiko to her. Saying that High God had reviewed the language spoken in heaven three times now. And that in that three times, Jeremiko had not updated his book.

She had tried to contact him severally and his phone or mail never goes through.

Azelea smiled at Wantuaa because of her efforts and told her that

Jeremiko was a dying one and must be in his slumbers. We would have to wait till he is awoken.

Chapter Three

Azelea instructed some Angels of hers to send some messages to the men of earth. One of them was Raphealo.

Raphealo went to one and said Happy Birthday. You are now forty-one and it is a great time in a man's life. Because forty is the age at which you can start getting involved in politics. The age at which you can

make preparations on becoming the Governor of your place.

Raphealo went to another and said Happy Birthday. You are now forty, it is the age when you are now called a great teacher.

Raphaelo went to yet another and said the same words. This time around Zulnokar (the one Raphaelo delivered his message to) said that does that make him an Ancient of Days. He remembers that God calls his Lord an Ancient of Days.

Raphealo replied saying the title of Ancient of Days is much more. It is given to those who are about six hundred (600) years old.

Mattuwaka (another recipient of God's message) asked that should birthday be celebrated when the person is not yet forty. Raphaelo replied that it depends on your circumstances and you should ask your Holy Spirit whenever you want to celebrate a birthday.

Unending War

Chapter One

Sodimantu was a great instrumentalist. He knew so and many communicated such messages to him. He enjoyed playing instruments since it wasn't very stressful.

Sodimantu knew another instrumentalist called Gbadeko. Gbadeko was not as good at playing instruments as he was, but he had two sames (special friends that only God can give).

So he prayed and asked of Instruments (the Lord of Instruments). When Instruments arrived he asked him why he had no sames.

Instruments replied that you are a Soldier, who plays instruments when there is no war. He continued saying if you could stop five criminals you would have more than two sames that Gbadeko has.

Chapter Two

Sodimantu was sure that life is sour without sames. He would have only one

business without games. So he decided to go to war and left his band.

At that time Cuntenum was gathering soldiers for war. The criminals were far more than the soldiers he could gather. Sodimantu decided to join them.

Cuntenum's group went to war against the criminals and all the members of Cuntenum's group died.

Chapter Three

Not all of Cuntenum's group was brought back to life. But thanks be to God Sodimantu was one of them.

Cuntenum gathered his men together and briefed them before the next battle with the criminals. He told them to pray that God wakes Brenden from his slumbers.

Brenden is the mythical creature maker who can war with wolfs and dogs.

Cuntenum's group warred with the criminals again. Judging from the number of people in Cuntenum's group they will all die again.

What's Wrong with Him

Chapter One

Wanwanka was thinking about which of his friends to marry when he heard God speaking to him.

God said: Do not be like your father. He went to hell fire.

Wanwanka replied: You must have confused me with someone else, because my father rose up to become the head of a reputable agency in the Government of my country.

And God said: Yes I know that. The reason he went to hell was because he was both brilliant and had access to a lot of money and yet did not start a company.

And God concluded: Do not be like him.

Chapter Two

Wanwanka had a problem. His Holy Spirit solved it for him.

But she was bothered that Wanwanka couldn't solve it himself. Because Wanwanka was a son of Saloma and that makes him a great child. And thus

should be able to solve the problem she solved for him.

Another Holy Spirit spoke to Wanwanka's Holy Spirit saying: It must be his environment that makes this son of Saloma not as good as expected.

Zuluwaka

Chapter One

Zuluwaka was called by God in her dreams to be a teacher.

Her favorite song was:

A boy approached his father telling him he wanted to study Factory. His father suggested Accounting. The boy still kept pressing him for Factory. And the father agreed.

Then the boy told his father that if his father keeps sending only one

song to his father's music group for an album, how will he study factory?

His father responded that was why I told you to study Accounting.

Chapter Two

Zuluwaka's father was called Isolo. His father's favourite song was:

After the death of Jerrubabil, ten bands stopped singing. And the amount of criminals in the country increased.

Chapter Three

Zuluwaka found no means (including words) to tell her father that she preferred Molech's teaching to that of her father's people.

Her father had four factories.

From her father's people to get an inheritance you must pass through an exam conducted by Prayers. And since she was a teacher she would be given a small amount.

But her father's chief cleaner had a son who was a factory child. This factory child would receive more

money than her since he was a factory child.

This was against Molech's teachings.

Chapter Four

Her father usually came to teach her some teachings.

In one of his teachings, he complained about Zulmathu who was under the teachings of Molech.

Zulmathu complained that computers were too difficult. And to reduce

these difficulties, cartoons should be purged from computers.

And his father concluded that anyone under the teachings of Molech is a lazy person.
